Education

Dhirubhai Ambani University CPI: 7.05	2025 - Present Gandhinagar, Gujarat
Bachelors of Science in Information Technology (GLS University) CGPA: 8.54	2022-2025 Ahmedabad, Gujarat
12th C.N. Vidhyalaya (GHSEB) Percentage: 83%	2021-2022 Ahmedabad, Gujarat
10th C.N. Vidhyalaya (GHSEB) Percentage: 76%	2019-2020 Ahmedabad, Gujarat

Projects

SocialChat – Real-Time Messaging Platform | Node.js, Express, MongoDB, Socket.IO, JWT

- Designed and developed a scalable real-time chat backend using Express.js and Socket.IO, enabling instant bi-directional communication between users through persistent WebSocket connections. Implemented user-to-socket mapping for targeted message delivery and online presence tracking.
- Built secure authentication and authorization using JWT and bcryptjs, ensuring protected API routes and encrypted password storage. Integrated MongoDB (Mongoose) for efficient message persistence and user data management, with structured RESTful APIs for chat, user, and authentication services.

TaskHive – SaaS Task Management Platform | React, Node.js, Express, MongoDB, JWT

- Designed and developed a scalable SaaS task management backend using Node.js and Express, enabling teams to create projects, assign tasks, and track workflow through structured RESTful APIs. Implemented workspace-based collaboration, task assignment, and role-based access control for efficient multi-user project management.
- Built secure authentication and authorization using JWT and bcryptjs, ensuring protected API routes and encrypted password storage. Integrated MongoDB with Mongoose for efficient data modeling, persistence, and scalable backend architecture for users, projects, and task management services.

LeetCode Stats Viewer | JavaScript, HTML/CSS, LeetCode GraphQL API

- Engineered a responsive front-end interface with dynamic progress wheels to display solved problems by difficulty (Easy, Medium, Hard). Integrated with the LeetCode GraphQL API by implementing a secure CORS proxy and constructing precise queries to retrieve user submission data.
- Implemented robust client-side form validation using RegEx to ensure valid usernames before API calls, preventing unnecessary server load. Architected an asynchronous data fetching flow with comprehensive error handling and loading states for a seamless user experience.

Technical Skills

Languages: C, C++, Python, JavaScript, SQL

Developer Tools: Git, VS Code, Linux shell

Frameworks: React.js, MongoDB, Node.js, MySQL, PostgreSQL

Cloud/Databases: Postgres, MySQL

Soft Skills: Team Collaboration, Problem Solving, Communication, Time Management

Coursework: Data Structures and Algorithms, Operating Systems, DBMS, computer networks

Areas of Interest: Full Stack Development, Competitive Programming

Achievements

- Leetcode [profile Link](#)
- Codolio [profile Link](#)

Certificates

- python Certificate Link
- javascript bootcamp Certificate Link
- c Programming Certificate Link
- SQL bootcamp Certificate Link
